Master Bathroom

The need for a master bathroom to make life a little easier for the homeowners was the inspiration for this remodel. We were able to bring their ideas to fruition. JEB Design/Build LLC showed them how the bathroom would look by using three-dimensional drawings on the computer. The new bathroom features universal design and handicap accessible. The vanity is high enough for wheelchair access. The shower is built so a wheelchair can be rolled into it and it slopes gradually to allow it to drain. There is enough clear floor space in the room to allow for maneuverability by someone in a wheelchair. The clients did not want their bathroom to look institutional. It was created with a "warm feel" to it. A truly inviting master bathroom that is also functional.

JEB Design/Build LLC is an 81 year old tradition that spans three generations in the Northwest Louisiana area. Jeb Breithaupt (pronounced Bright-up), President, grew up in the building industry, taking over the business in 1983 from his father, Joe Breithaupt.

This award-winning remodeling company has been recognized in the industry for outstanding customer service and fine design. Here at JEB Design/Build, LLC we take the guesswork out of remodeling, saving you time and worry. Because we offer extensive experience in both creative design and quality construction, we offer customers a one-stop shop. And, we work with you to incorporate your ideas and ours into a project that fits your home, lifestyle, and budget. See our website at www.jeb.net
