This lovely luxury garden home is situated conveniently in the Greenacres Place Subdivision within a gated area. It features an open design in the den, kitchen, dining, and courtyard areas. The den is adorned with lovely Mahogany built-ins and ceiling beams. Indirect lighting softly warms the atmosphere and highlights the unique ceilings and moldings. The remote master suite features a beautiful bath with cherry cabinets, travertine marble shower & floors, as well as solid granite vanity tops. A large bonus room is located upstairs, along with two bedrooms, a sitting room area, bath, computer area, and balcony. The courtyard is enclosed by a brick wall with a fountain and floors are a Travertine Marble. Beautiful landscaping adorns the sodded and irrigated yard with wrought iron gates & stained concrete driveway.
